PROFESSIONAL SUMMARY

Computer Science Engineering student at Lovely Professional University passionate about Software Development, Cloud Computing and DevOps. Experienced with Docker, Linux, Git, AWS fundamentals, CI/CD pipelines and modern web development. Actively solving Data Structures & Algorithms problems while building production-ready cloud applications.

EDUCATION

Lovely Professional University

2024 – Present

Bachelor of Technology in Computer Science Engineering

TECHNICAL SKILLS

Programming & Web: C++, Python, JavaScript, React, HTML, CSS, SQL

DevOps & Tools: Docker, Docker Compose, Linux, Git, GitHub, GitHub Actions

Cloud Services: AWS EC2, AWS S3, CloudWatch

Databases: MySQL, PostgreSQL

PROJECTS

Cloud Resume Website with CI/CD

- Built a fully responsive cloud portfolio.
- Containerized using Docker.
- Hosted on AWS EC2.
- Automated deployment using GitHub Actions.
- Stored static assets on Amazon S3.
- Configured CloudWatch monitoring.
- Used Git for version control.

Other Projects

Restaurant Website: Responsive multi-page website using HTML CSS JavaScript.

E-Learning Platform: Full Stack project using React, backend APIs and database integration.

Doorbell for Disabled People (Arduino-based Wireless Assistive Alert System):

Wireless assistive alert system using Arduino, NRF24L01 modules, vibration motor, LEDs and buzzer.

ACHIEVEMENTS

- Strong understanding of Data Structures & Algorithms
- Building real-world DevOps projects
- Learning AWS Cloud and CI/CD

LANGUAGES

English, Hindi
